ZIP-FLYER

Overview

The world's steepest zip-line located in the scenic city of Pokhara. It is also one of the longest ziplines globally, offering an unmatched adrenaline rush to adventure enthusiasts. Starting at an elevation of 5400 feet above the sea level, that descends with the vertical drop of nearly 2000 feet.

The zip-line's slope angle of 56 degrees ensures a high-velocity ride, reaching speeds of up to 140km/h (87mph) as you soar over lush forests, pristine river and stunning landscapes.
